

**Brown Belt**  
**Home Exercises**  
**Wednesday October 11, 2006**

**Reading Assignment:**

Review the introductory material from Chapter 5 of book 1A, pages 79-83, on **Real Numbers**. This includes addition, subtraction, multiplication and division of integers with various signs, the rules for operating on integers (commutative, associative, and distributive laws), and rational and irrational numbers. Also read the introductory material from Chapter 6 of book 1B, pages 102-107, on **Estimation and Approximation**. This includes rounding off, significant figures, rounding off to a given number of significant figures, and estimation.

**Homework Assignment**
